

A FAMILIAR FACE: KRISTEN KINSELLA

has been promoted from Evening Circulation Supervisor to Head of Circulation, filling the role left vacant by Alie Stansbury. In an effort to go green and increase efficiency, Kristen is working towards a paperless accounting system and is automating course reserves. Kristen has a BS in Anthropology. Her broad background includes employment as an archaeologist and editor for Archaeology Mississippi and a position as a Grants Specialist for Mississippi Emergency Management Agency. Kristen's spouse, Joe Kinsella, is Head Softball Coach and Intramural Director for Lake Forest College. They have 3 children.

...Also: Cara Zwieschowski will be filling the position of Evening Circulation Manager vacated by Kristen.

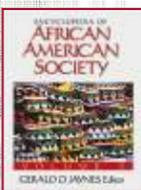

ARCHIVES ASSISTANT STEVE VIGNOCCHI '93

rejoined the library's Special Collections and Archives in March 2008. He spent three and a half years working in archives as an undergraduate and is thrilled to be back "home." Steve previously worked in archives at the John D. and Catherine T. MacArthur Foundation and has recently assisted in organizing the archives of the National Center for Effective Schools Research and Development.

Check course reserves online to see whether a course reserve item is currently available. Follow the Course Reserves link from the library's home page at library.lakeforest.edu

Online books: The Library currently subscribes to or owns over 300 virtual reference books. This collection of e-books includes general and specialized encyclopedias and dictionaries, covering much of the Lake Forest curriculum, from Art to Islamic Studies, to Physics and beyond. Peruse the collection at: library.lakeforest.edu/books/ebooks.html

A Mac Lab for PC users too

Room 211 of the library has been transformed into a Mac lab that seats 12 students and 1 instructor. The sleek 20" iMacs are capable of booting up either Mac OS X or Windows XP. Each machine has installed a variety of software packages used by different departments on campus, such as iMovie, iDVD, iWeb, and Garageband on the Apple OS X side, and LabView, Stata, SciFinder Scholar, ArcGIS, VectorWorks, Photoshop, and Google applications on the PC side.

THE BIG SWITCH IS COMING Office 2008 for the Mac has been referred to as more of a "sidegrade" than an upgrade. If you use macros, we recommend that you *DO NOT* move to Office 2008 because it lacks the Visual Basic integration that you need to make some automated tasks work. Microsoft has promised to include Visual Basic integration in their next major release of Office 2008.

Books to devour If you've been hunting for the perfect snickerdoodle or roast duck recipe, your search is over! Joan Reardon of Lake Forest recently gave the library over 300 cookbooks and books on culinary history, wine, foodways, and gastronomy.

Dr. Reardon is a noted scholar of the culinary arts and is food luminary M.F.K. Fisher's biographer. She is presently writing a book on Julia Child for Farrar, Straus, and Giroux.

We will highlight her gift books in the new book display area on the main floor of the library, but you will also find most of them by going to the "T" section of the lower level book stacks once they're cataloged.

Faster than the pony express Books requested from I-Share libraries generally arrive in 3 business days. You will receive an email when your books are available for pick-up at Circulation.

Get 'em while you can Books not picked up from Circulation within two weeks will be sent back to their home library.

WHAT'S NEW FOR YOU IN THE TRC: The new centralized configuration of the TRC allows student employees to see everyone's screen and anticipate needs for assistance. Five more patron work stations have been added, including 3 Mac mini stations. Also, a limited number of MacBook laptops are now available for checkout.

The TRC also functions as a small group training center, with a projector and 2 Master Trainers (MTs). Quincy Roberts '09 is the MT for Mac applications and video editing. Sudin Kansakar '09 is the MT for Microsoft applications.

A new TRC web site has current information about services and schedules, and where patrons can request training appointments at campus.lakeforest.edu/browntrc.

Bibliographies made easy: Did you ever wish MLA, APA, or Chicago Style citations could be automated? Now they are! Cite your sources with confidence using RefWorks, the bibliography builder. Follow the RefWorks link from the library's home page at library.lakeforest.edu
