A question may enter some of your minds as to what the Stentor is for. It is to voice the sentiments and opinions of the students and for that purpose its columns are open to them. It does not pretend to be a literary magazine or to tire its readers out with laboriously prepared essays and exhaustive discourses, but simply to give the news in a brief way and look out for the best interests of the school. Therefore we ask all to feel it their privilege to use our columns to state their cause.

After the able management of last year the Stentor appears to you for another season. The only way the Stentor can be run successfully is to have the support of every student. Naturally the better our support the more and better the material we can print. Therefore see to it that you are a subscriber. Don't six of you go in and get a family copy by paying a quarter a piece. You'll have to wait your turn to read it then, besides you might be blowing yourself too much. But step up, plunk down your lucre, and pledge us your good will and support.

Things have come to a pretty pass when a common laborer about the college will stop his infernal racket for no one but His Honor Frye. Not long since one of Frye's men was making such an unearthly noise in the building that one couldn't hear himself think. The Professor in charge of the class requested him to stop. The man replied that under no consideration would he cease unless ordered by Frye. Frye wasn't around, so there it was. The man went on thumping and pounding out of sheer spite and the class waited till he was through. This is only an instance of how Frye rides over everyone regardless of anything. Its been the same for years, it probably will be until Frye dies of the swell head.

Again we have come back from a long vacation and found the Gym in the same condition in which we left it. It is almost too much for the students to stand, this constant delaying. Here we have a beautiful Gymnasium and can't use it. And why? The only reason we have heard is because the town people would have used the apparatus this summer if it had been put in. Preposterous. Isn't there a lock to the door and are the town people such boors as to break that. We can readily wait for waterworks for our tank but there seems to have been a woeful lack of energy about securing the apparatus. Everything is as quiet and hushed about the building as if it were the
tomb of our revered Frye. For physical trainer a Mr. Everett of Chicago, we understand has been secured. Now this gentleman may be a very good man in his place, but we need a man here who has been in the east and not only understands some Gym. work, but who can coach the boys in baseball and foot-ball. We have in mind a certain gentleman who has been physical trainer at Williams college for years, played on the Williams ball team and is an excellent athlete. He wants the place here. Why shouldn't he have it? He would do us more good than the present man. Think over it, students, and take some action. We don't blame the trustees as we know it is hard work finding a man, but when we do find one, let us have him.

COMMUNICATION.

Glencoe, Ill., Sept. 13 '91.

Editor Stentor,

Dear Sir:—If support and encouragement is given us, we, the Grand Stand Company, propose to give a series of five (5) Grand Concerts, Saturday evenings during Sept. and October, 7:30 to 9:30 o'clock.

The following scale of prices has been decided upon for the five concerts.

Private Box, seating six for season $20 00
Stalls, seating six for season........ 12 00
Stalls seating two for season......... 5 00
Chair on stand for six concerts....... 2 00

If sufficient encouragement from advance sale is given us, the Fort Sheridan band will immediately be engaged and the series of five concerts be given at an expense of nearly Five Hundred ($500) Dollars.

An early reply is earnestly requested.

Respectfully yours,

Benj. Brewster.

Mr. Brewster wishes to announce that grand stand season tickets for foot-ball games will be sold at 50 cts., and can be purchased at the college book store. Mr. Brewster has been more than generous with the boys in putting up such a stand at such a loss to himself. Everyone should get a season ticket and at least show his appreciation in that way.—Ed.

Foot-ball is here and with it we hope the pennant. This will be the first year of the Foot-ball League and there will be some tall hustling for the prize. Our boys are working hard and with a little coaching will do well. They are in a training club and are playing under the eye of Ames of Princeton and Gallwey. Most of the old men are back. King and Steele however are badly missed, as the team has no one for full back and only one half. However men will be speedily found for these positions. With such earnestness on their part we should cheerfully contribute our mite to help them out financially. If they win the pennant it is not only our glory but a big "ad" for the school, and if they play as well as last year they will do it. So when the paper comes around, chip in heartily and they will repay you.

While this edition is coming out our orator and athletes are down at Monmouth, we hope winning honors. We are represented in foot-ball and tennis in the athletic contest while Mr. Matthews will deliver the oration. The association is the same intriguing body it always was. The judges secured are all from Peoria, favorable or at least friends of one man on the contest. Our protest is in but it is like a drop in the bucket. Probably tossed in the waste basket. We hope the best for Mr. Matthews, but if he secures justice down there you can knock the editorial us down with a feather.

FIELD DAY.

Our annual field day is put down this year for Oct. 21. This is an event in athletics that should arouse the greatest interest possible in the students. We have several good athletes here who, with judicious training, could break some record or give it a close
rub, and we should see that they enter the events. We must make this day a success in every way. There have been many suggestions in the past for an University Day. Here’s a chance for one. The city departments are full this year and are anxious for a University spirit. A hustling committee has been appointed to take charge of the day’s sports here. Let them appoint a sub-committee to wait on Rush Medical, the Dental and Law schools, ask them to send out their athletes and come out in a body. That would spur the boys on here, give us a better chance to make good records, and enable us to see what a big university we have. At any rate let those that enter, train hard and do themselves and the Varsity proud. The committee selected are Messrs. Flint, Linn and Zimmerman. The events are numerous and varied and the prizes are elaborate. Medals will be given for the following: Silver medals for standing broad jump, hop, step and jump, putting shot, running broad jump, high jump, drop kick, throwing base-ball, batting base-ball, throwing foot-ball, hurdle race, place kick, tub race. Gold medals for 100-yard dash, 220-yard dash, half-mile walk. The second prizes in all the events are well worth preserving. A silver cup will be given to the winner of the bicycle race. The committee however wish it distinctly understood that no medals will be given unless satisfactory records are made. This is as it should be, as to give a good prize for a poor performance is foolishness. So everybody lend their efforts or at least their presence that day, and its success will be assured.

THE NEW PORTION OF THE FACULTY.

In a college where everything changes each succeeding year, the Faculty must needs undergo this same change in order to keep up with the times. Several changes have been made in that body since our last issue. Prof. Emerson has gone to Cornell, where he has the chair of Archaeology; Prof. Sanford is now professor of physics in the new Leland Stanford University, in California; Prof. Spencer Smith is in business in Chicago; Asst. Prof. Martin, is taking a post-graduate course at Evanston. In their places appear Profs. Stevens, Morris, Bridgman and Harper. All have made their mark in their special departments and are highly esteemed as teachers. Prof. Bridgman came here from Miami University, where he held the chair of Greek. He is a graduate of Yale.

Prof. Stevens taught Physics and Chemistry in Hyde Park last year. He is a graduate of Ann Arbor.

Prof. Morris comes from Hamilton. He is a graduate of that institution.

Prof. Harper, everyone knows and his work speaks for itself. He is a graduate of Oberlin and John Hopkins. A new department has been made for him, that of Botany and Geology which was formerly taught by Prof. Loey.

A WORD AS TO WHAT WE NEED.

We need first and foremost a varsity glee club. Not that the society club is not a good one, for it is, but we want a club that will represent not one society but both, not the college alone but the cad also, one that all the University will be interested in and be proud of. There is no reason in the world why we can’t have as good a glee club as any college in the west. Very few schools have as good a musician or leader as Mr. Humiston and if he is willing to undertake it, we shall succeed. We say this not from a society point of view but for the best interests of the Varsity. A varsity glee club is the only organization of that kind that will win renown for our L. F. U. We need a banjo club. There are several good players here who with a little practice could form a really creditable club. This in connection with a glee club could give
concerts in the vacations and more thoroughly advertise the school, as well as have an enjoyable time.

Last but not least we need a reading club. There is too little reading done in college, that is systematic, good reading. A reading club could be organized, officers elected, a course of reading laid out in various channels. Study fiction one month, poetry the next, history the next, and so on. A meeting might be held once a month and the authors or books just read, discussed. This could be made a really enjoyable and profitable club. What think you, readers?

THE ATHENAEAN RECEPTION.

The Athenaeum Society gave its semi-annual reception in their rooms Saturday evening, Sept. 12. The hall was beautifully decorated and the boys did themselves proud as hosts. The reception committee was assisted by the Misses Ruth Smith and Hallie Hall of the Seminary. The program, which was short consisted of a solo by Mr. Dodge and a paper read by Mr. Manchester. The refreshments served by Eekhardt were beyond criticism. As it was the first reception of the year a good chance was given the new students to become acquainted. Among the visitors we noticed the following old students: W. E. Lewis, W. E. Danforth, J. H. McVay, Sartell Prentice Jr. '91, G. H. Stecl, Aubrey Warren, Fred Conger, and J. Arthur Mitchell.

THE Y. M. C. A. RECEPTION.

The Y. M. C. A. gave its annual reception in the Church Thursday evening, Sept. 24. It was a very enjoyable affair as it always is and reflected great credit on the association. Dr. McClure made a brief address, and Mr. Matthews read a selection. The building was nicely decorated and an appropriate motto was hung up over the door. Conversation cards enabled the bashful youth to become acquainted more easily and "all went merry as a marriage bell".

TEACHINGS OF EXPERIENCE.

Dear Freshies:

"Let me retrace the record of the years
"That made me what I am."

When I was a Freshman I made a practice of reading Worcester's dictionary through every morning before breakfast. It was a useful as well as an ornamental exercise and highly conducive to a corpulent vocabulary. I found the study of human nature more valuable and less laborious than the study of mathematics. The best way to study human nature is to sit in one's room, never see anybody, and never go out with the boys. There is another good point about staying in one's room—one never knows but what the Sophomores may occupy it while you are away. One needs to be used to being lonesome. It is said one man was lonesome in heaven.

One of the first things a freshman should learn is to smoke. Smoking is good for the lungs. It is also good for red hair. The writer once knew a man who had sore eyes. He resorted to smoking and did not have any more sore eyes. It isn't much use to study the lessons given out by the professors. In their secret thoughts and the privacy of their own closets, the professors never intend the lessons to be studied. What a man needs to acquire in college is hard, callous nerve.

My experience taught me that it was not good policy to go with the girls. It makes a girl conceited to go with her. Girls are loving, trusting things. They are as innocent as new mown hay. No honest man will fool a girl by going with her. Just as likely as not she will want you to be a sister to her. If I had it to do over again I should choose the literary society I disliked the most and then join it. W. E. D. '91.
AMONG THE ALUMNI.

At the annual meeting last June, the Ferry Hall Alumnae Association elected the following officers: President, Miss Grace Godfrey, '85; First Vice-President, Miss Annie Flack, '88; Second Vice-President, Miss Sara Buell, '90; Secretary and Treasurer, Miss Harriet Magill, '89.

The Lake Forest College Alumni Association met in the president's room at the college, June 16, at 4 o'clock. The officers elected are: President, A. E. Jack, '84; Vice-Presidents, W. F. Lewis, '90, A. G. Welch, '89; Secretary and Treasurer, Miss Mary E. Taylor, '86; Members of the Executive Committee, Miss Jane Wilson, '88, Thos. E. Barr, '85. The association decided to continue to provide for the tuition of one student in the college. A new constitution was adopted, which we publish in this issue. Every member of the association and every student in the college should preserve a copy of this constitution. You will want it for reference.

CONSTITUTION—REVISED JUNE 16, 1891.

We, the Alumni of Lake Forest College, do hereby organize ourselves into an association for the purpose of perpetuating pleasant associations and of furthering the interests of the University.

ARTICLE I. Name of organization.
The name of the organization shall be the Alumni Association of Lake Forest College.

ARTICLE II. Members.
The members of the Association shall be graduates of the college, who shall signify their desire to enter the Association. The graduates may elect associate members by an unanimous vote. Associate members must have been in attendance at the college for two years.

ARTICLE III. Officers.
The officers of the Association shall be four, President, First Vice-President, Second Vice-President, and Secretary and Treasurer, to be elected annually. These together shall form the executive committee.

ARTICLE IV. Duties of officers.
It shall be the duty of the President to preside at all meetings. He shall have the power to call a meeting, if necessary, and shall be the chairman of the executive committee. The Vice-Presidents, in order of precedence, shall fill the President's place when he is absent. The Secretary and Treasurer shall keep a record of all meetings, attend to correspondence, and have charge of finances. He shall notify members of incoming classes, of time and place of meeting and shall give due notice to regular members. The four officers, with two members, also elected annually, shall be empowered to transact all business put into their hands by the Association at its annual meeting.

ARTICLE V. Duties of members.
Each member shall attend the regular meeting of the Association, when possible, keep the Secretary informed of his address, pay an annual due of one dollar and all dues necessarily levied by the executive committee, and do all in his power to promote the welfare of the Association. Associate members shall have all the rights of graduate members with the exception of the right to hold office.

ARTICLE VI. Dues.
The non-payment of the annual due of one dollar for three successive years shall forfeit the right of membership of person so doing.

ARTICLE VII. Meeting.
There shall be an annual meeting of the Association held at Lake Forest on the afternoon of Tuesday before Commencement, the exact nature, time, and place being left to the discretion of the executive committee.

ARTICLE VIII. Quorum.
A quorum to transact business shall consist of fifteen whose graduation has been at least one year previous.

WHEREAS, It has pleased our heavenly Father, in his allwise providence, to take to himself our dear friend and fellow-alumnus, Edmund H. Hyde, a member of the class of
'88. and our hearts are filled with sorrow and drawn out in sympathy for his friends and relatives, therefore

Resolved: That we tender to them our heart-felt sympathy, that we express to them the deep regard in which we held our friend and our loving remembrance of his helpful and beautiful life and character; that we commend his friends, even more deeply bereaved than we, to our heavenly Father who is able to comfort us in all our troubles and who makes 'all things work together for good to them that love God.'

Resolved: That a copy of these resolutions be sent to his parents, one to the STENTOR for publication, and one to the Secretary of the Alumni Association for insertion in the records.

In behalf of the Alumni,

CALVIN H. FRENCH, '88.
JANE S. WILSON, '88.
W. W. JOHNSON, '88.

Lake Forest, Ill., June 16, 1891.

'88. J. J. Boggs has returned from his three years' residence in Japan as a teacher. He is now a Junior at McCormick Theological Seminary. We hope that Mr. Boggs will favor the STENTOR readers with his views on Japanese affairs and with an account of some of his own experiences.

C. H. French, who completed his Theological course at New York last spring, is now pastor of the Presbyterian church at Scotland, South Dakota.

'89. That enterprising alumnus, A. G. Welch, has been called to the responsible position of Principal of Elgin Academy. On the list of instructors, we note the familiar names of George B. Bergen and Mrs. Hattie Bergen. Mr. Welch intends to make Elgin equal to any college preparatory school in the west, and he has the energy, scholarship, and executive ability to do it. We expect to see all Elgin graduates come to Lake Forest College.

B. M. Linnell, in the absence of the science teacher has been teaching in our Academy since the opening of the term, but his work this year is to be that of a student at Rush Medical College.

Miss Mary L. Phelps was here at the opening of the University. She will not teach this year but will remain at home.

OUR LATEST LOSS—THE CLASS OF NINTY-ONE.

H. H. Davis, W. E. Danforth and J. S. Sutton are enrolled as students at McCormick Theological Seminary. J. H. McVay is studying at the Chicago Homeopathic Medical College. E. F. Dodge is attending the Northwestern University College of Law and employs his leisure in the lumber business. W. H. Humiston devotes his time exclusively to music. He comes to Lake Forest every Thursday to train the Zeta Epsilon Glee Club. Miss Rumsey is away visiting now but will return to Lake Forest soon. Miss Raymond is teaching at Dixon. Miss Phelps is wielding the ferule near Byron. Miss Davies holds the chair of History at the Nashville College for Young Ladies. Miss Ensign is at her home in Chicago—Miss Sickels will spend the year at her home in Indianapolis.

UNDERGRADUATES WHO DO NOT RETURN.

Of the Senior class, Miss Underwood goes to Michigan University, A. M. Candee goes to Princeton, G. W. King goes into business at Joliet, and J. A. Mitchell enters mercantile life at Englewood.

Of the Juniors, F. W. Ridgway will sell drugs at his father's store at Morris; L. B. Jorahmon has entered the Wisconsin University; John D. Russell is keeping books in an Indiana city; Albert Woelfel will probably go to Cornell University; and Miss Tilford will either teach or spend the year at home, and our only original W. C. Eakins will serve the municipality of Chicago in the water department and read law at the Northwestern University College of Law.

The Sophomores who were faithful to the
end last year have all returned except H. W. Jones, whose plans and whereabouts we were unable to learn.

Miss Florence Curry, a graduate of Oxford College, who pursued special studies in our college last year, is teaching in Lake Forest public school and is continuing special studies in the Latin department.

McCormick Seminary now numbers thirteen Lake Forest boys among its students. Their names are: B. Konkle, L. J. Davies, J. J. Boggs, Grant Stroh, Graham Lee, E. M. Wilson, W. F. Lewis, W. E. Danforth, H. H. Davis, N. B. W. Gallwey, J. Sutton, David McAllister, and Richard Pugh. The presence on the faculty of Dr. Zenos, our former professor of Greek, is very gratifying to his Lake Forest friends.

---

**COLLEGE.**

There are 95 students in the cad and 105 in the college.

Miss Pratt, '95, manipulates the organ this year in Hummyesque style.

What is the matter with '93? She is still the largest class in college.

"Gentlemen five serenades a week beats the record." Well Doctor, we're out for records this year.

Somebody says that the Literature Kindergarten is getting too funny. They are not allowed to "gaze."

Prof. Gee of Princeton, one of the authors of Stewart and Gee's Physics was a guest of Prof. McNeil last week.

Tuesday, Sept. 15, the freshmen held their first meeting and were allowed to organize unmolested by the sophs.

Prof. Booth has begun his work in oratory. The Juniors and Seniors work together this year as do the Sophs and Freshmen.

Scrap. Mr. Rossiter tickled Mr. Hopkins Secundus and Mr. H. forthwithly swatted Mr. R. Both sides are now "reconoyster ing."

Such little pleasantries as proximity to the pump, and the funnel gag, have made the new men feel that here they have found a second home.

The Freshman class has a larger proportion of girls than any class ever entered in the college. There are seventeen boys and fifteen girls.

Mrs. Stuart, the wife of our revered professor, died this summer after a long illness. The Stentor and school sympathize deeply with Prof. Stuart.

We would suggest that a certain gentleman in the Psychology class give the ladies a chance to pass out before he proceeds to slug his neighbor.

The Sen. senior class recites in Economics and Psychology at the college now. It reminds us of the erstwhile Physics class. But "Riley" is not with us.

Among the late arrivals are Mr. and Mrs. Price and Mr. Foss. Mr. and Mrs. Price come here from Wooster College, and Mr. Foss from Hamline University.

The class of '93 are still in the swim, and though they feel deeply the loss of "Annie Rooney," yet they are confident that her place is amply filled by Miss Alvah Doran.

The seniors have grown visibly and are rather top heavy. But it's only their new silk tiles. They'll get used to them presently so they won't have to duck for every branch nine feet high.
It is so that the Sophs have challenged the Freshies to a cane rush. We are unable to understand why any class should hesitate to accept a challenge for anything from '94, but '95 is a little slow.

H. D. Stearns of '92 is going to leave us for a "wilder and more woolly" clique, as he is going to follow Prof. Sanford to Leland Stanford University. We lose in Mr. Stearns a bright student, and a man universally respected.

There are some new electives this year. Prof. Halsey has one in the English Revolution. It is the largest elective class ever in the school. Prof. Dawson has another, German Conversation, which promises to be exceedingly interesting.

The Y. M. C. A. had issued this summer a very neat handbook of Lake Forest containing an account of the association itself, the athletics, societies, publications. Also the schedules for the three terms. It is a credit to the association.

What do you think? We have at last found out "our senator's" weak spot. On being asked how he felt, the other day, Mr. Fry said, "Well I don't know; my head feels sort of queer. Every time I 'exaggerate' myself I have to give up."

Remarks heard as the ranks pass the first day: "Whew, stunning new girls." "Well, I should say. What's the matter with the tall one in black." "Oh she's not in it with the little one in gray." "Oh come off, you're not up on the subject," etc.

Bids have been received for the Science Hall by the trustees. This Hall is to be built on the ground now occupied by the Academia Club. Whether the contractors will agree to have this under cover before winter is not known, but the board hopes to make such a contract.

There are five dining clubs this year. The G. P. at Mrs. Frazer's, W. R. Nash, Steward; Matthews club at Anderman's, Matthews, steward; Chaffee's club, with Chaffee steward; the Training club, the first of its kind in school, at Mrs. Gunn's, Hayner, steward; and the Academy club at Academia.

The recent additions to the library are as follows: Forum, twelve volumes; Schliemann's Works, four volumes; White, Silva, The Development of Africa; Maurice, Theological Essays; Miles, Poets and Poetry of the Century; Cornwall, English Songs; Martin, Home Life on an Ostrich Farm; Church, Count of the Saxon Shore.

The faculty recruited themselves during vacation in the following way: Dr. Roberts was in the Adirondacks; Profs. Locy and Smith spent the summer in Europe; Prof. McNeil sailed the seas up and down the eastern coast, for the government; Prof. Halsey was in Georgia; Prof. Stewart divided his time between Chautauqua and Michigan.

DEAR ZIM:

This letter to you I address
As one of the old boys, who must confess
That, "There is a limit to all things made,"
Especially true of a serenade.
Although they are lovely, it is not right
That we should endure three in a night,
And so I make this single request,
That once a week do for the rest.
Having expressed myself thus freely,
I remain, yours faithfully,

DR. SEELEY.

The Art Institute, which has been greatly hindered by the trouble between contractors and men, resulting in a strike of several weeks, is now being rapidly pushed to completion. It is the hope and expectation of both the board and the contractors that the building will be entirely finished and ready for use on or before Nov. 1st. The basement is almost finished now.

Our oratorical officers for the ensuing year are as follows: Pres. F. C. Sharon; Vice-Pres., A. W. Doran; Sec., Elmer Chaffee.
This was the result of the election of Thursday, Sept. 17, and under such management our college ought to come to the front rank. The ability and talent is here and with a proper show we need yield no longer to Knox or any other college.

Monday, Sept. 14, occurred the first encounter between the freshmen and sophomores. It resulted from the attempt on the part of the sophomores to tie two of the freshmen in their rooms. The freshies appeared on the scene and a lively scrap took place, in which the freshies had the advantage on account of superior numbers. This served, at least, as an opportunity for the class of '95 to show their mettle, and they did not fail.

The physical director of the gymnasium is Warren Everett of the academy. He is said to have taken a full course of athletic training from his brother, one of the best all-around athletes and trainers of this section of the country. The apparatus has been ordered from A. G. Spaulding and will be one the most complete outfits of college gymnasiums in the country. It will be in place as soon as the water is put in and connected.

The football prospects are very good this fall. Flint has been in training all the summer and is in good shape to train the team. With Sheldon from Rush and Gallwey and Bothney, nothing can stop us. We are not only going to play well, but we are going to have the best moleskin suits. One game has been played between the L. F. University eleven and a picked eleven of eastern college graduates. The features of the game were, the runs of Bothney and kicking of Andrews for the home club, and a star run of Ames of Princeton for the picked eleven. The score was 12 to 6 in favor of the home team.

FERRY HALL.

Miss Alice Conger, class of '90, will spend the year at Ferry Hall, taking a special course.

Prof. Clement of Ann Arbor was a guest at Ferry Hall over Sunday.

Judge Hong, of Kansas City, spent Sunday with his daughters at Ferry Hall.

Miss Isaacs of Chicago was called home by the sudden death of her brother-in-law.

Miss Goodwin attended during the vacation, the Summer School for Science, at Madison, Wis.

Misses Clara Platte and Marquita Corwin visited friends at Ferry Hall, the latter part of the week.

Miss Lilian Robinson, at Ferry Hall last year, spent the first Sunday of the term with friends at Ferry Hall.

Miss May Orcott has been compelled to return to her home at Oak Park for a few days to recover from a sprained ankle.

Lying beside their plate at the supper table Monday evening, each one found a beautiful rose, "an equinoctial storm from F. Calvert & Son."

Miss Robinson spent the vacation at her home in New Jersey and in the Adirondacks. Miss Calhoun at different points in the New England states.

The corps of teachers at Ferry Hall remains the same as last year with the exception of Miss Fleming, who now has charge of the Elocution work in place of Miss Davis.

Thursday evening Prof. DeProsse, for the first time this year entertained the young ladies of Ferry Hall with music. As usual, his playing was highly appreciated and enjoyed.

A few days ago something about the elevator broke while it was at the fourth floor and full of girls. Down it came but by a miracle no one was hurt. However a worse frightened lot it would be hard to find.
The marriage of Miss Minnie Mason, formerly of Ferry Hall, and Mr. Richard McKe, of Chicago, took place at Hyde Park in July. A number of Miss Mason's Ferry Hall friends were present at the wedding.

Miss Jean Smith and Misses Edith and Ethel Smith attended the wedding of Miss Agnes Smith and Mr. Vance, at Appleton, Wis., Wednesday. Miss Smith is well known in Lake Forest having been a Ferry Hall girl.

The Senior class of Ferry Hall wish to announce to the world the fact that they are Seniors, borne down by the dignity of privileges. Henceforth they demand all respect and reverence due to persons of their years and position.

The officers of the Aletheian Society for the ensuing term are as follows: Pres., Miss Beatrice Taylor; Vice-Bras., Miss Beech; Sec., Miss Annie Adams; Treas., Miss O'Bern; Critic, Miss Lizzie Williams; Sergeant at Arms, Miss Agnes Brown.

At a business meeting of the Ferry Hall Missionary Society held Tuesday evening, the following officers were elected: Pres., Miss Patrick; Vice-Bras., Miss Annie Adams; Recording Sec., Miss Hall; Corresponding Sec., Miss Margaret Conger; Treas., Miss Decker.

The first regular meeting of the fall term of the Nu Beta Kappa Society was held Friday evening, September 18, the program consisting chiefly of music. The officers for the term are: Pres., Miss Brinkerhoff; Vice-Bras., Miss Carrie Titus; Sec., Miss Rhoda Clark; Treas., Miss McCormick; Critic, Miss Patrick; Sergeant at arms, Miss India Wilson.

Dr. and Mrs. Seeley reported a most delightful vacation. They first attended the National Teachers' Association at Toronto, from there down the St. Lawrence to Montreal. Then through to the White Mount-

ains. After visiting Portland, Boston, Harvard College and New York they spent considerable time at Patchogue, Long Island, fishing, sailing, etc.

The school year has opened with a larger attendance at Ferry Hall than at any other time in its history. There are one hundred and thirty young ladies in the building, twenty-four of these being members of the college. Fifty-one former Ferry Hall girls have returned. The number of pupils in the departments of vocal and instrumental music, elocution and art is unusually large.

THE ACADEMY.

C. B. Oliver, '91, is a freshman at Ann Arbor.

C. C. Dunbaugh, ex-'92, is now working in Omaha.

G. A. Campbell, Williams, '94, visited F. Grant the 15th and 16th of September.

Dave McAllister, ex-'92, was up the 18th. He is now taking his last year at McCormick.

C. E. Durand and F. E. Dewey have been traveling in Europe this summer. They may go to school in Germany this year.

The prayer meetings at the Cad are doing well so far. Still they might have a larger attendance. The meeting comes every Tuesday night at seven o'clock.

We are sorry to say it has been necessary to put several men under the pump already. Quite a number were well watered at Mitchell Hall the other evening.

The reception given by the Y. W. C. A. and the Y. M. C. A. was much enjoyed by the Cads. It was much brighter than some of them used to be, three or four years ago.

About 10 Cads stand a good show for the Varsity eleven. Besides those who were on the team last year, there is some very prom-
THE STENTOR.

ising new material. [Why not make it 11 cads.—Ed.]

The tennis courts should be attended to. The Academy court in particular is in very bad condition. The question is often asked “Why don’t you fix up your own court?” That’s not for us to do. The Cads pay their dues to the association and the association should take care of the courts.

It is a good idea for everyone to join the Athletic Association. Those not members are not allowed the use of the tennis courts. Those who are members can get their season tickets to the ball games fifty per cent. cheaper, and they also have a voice in the affairs of the association. The dues are 50 cents.

On a careful examination of Academia building, it was found that the strain of moving would be too much for it. It was to be moved about a hundred feet to make room for the Science Hall. Mrs. Stewart has charge of Academia now, and though Mrs. Davies is greatly missed, her place is well filled.

From over ninety men in the Cad, it is surprising if there are not more than half-a-dozen to take part in the field day exercises as was the case last year. Each one stands as good a show as the other, and the prizes are worth working for. Let the Cad be well represented and the Cad will take its share of the honors.

The students who come to the ‘Cad for the first time this year do not appreciate the changes it has undergone during the summer. Every room has been thoroughly cleaned, the walls have been papered, and a cornice has been put up on which to hang pictures. In every way the ‘Cad is a much more agreeable place to live in than ever before.

When school opened everybody supposed of course that the Gymnasium would be found in working order. But to the surprise of all, the building is in the same condition that it was the last of March. Some attempt at an excuse for neglecting to put in apparatus was given at the beginning of the term. The excuse was worthy a kindergarten child. And now the Gym is not fit even for the holding of a reception there, so the reception had to be held in the church. If there is a good reason for all this, why cannot it be made known?

The officers of the two societies of the Cad for the term have been elected. They are as follows: Gamma Sigma Society—President, David Fales; Vice-President, Cheever; Secretary, C. E. Carver; Treasurer, J. A. McGaughey; STENTOR Correspondent, J. M. Flint; Critic, W. U. Halbert. For the Tri Kappa Society—President, E. C. Yaggy; Vice-President, E. A. Pollock; Secretary, C. E. Royce; Treasurer, Miner; Critic, Moriette. The plan has been suggested that the societies should meet at night. Whether this is a good plan remains to be decided.

Several changes have taken place in the Faculty. Principal Smith and Profs. Burnap and Williams still remain with us. Prof. Spencer Smith is now superintendent at A. C. McClurg’s book store. Prof. Stollhofen occupies the chair of modern languages at Evanston. He and his wife spent the summer in Dubuth, Mian., where he was teaching. Prof. Constock is now expounding Latin to the scholars of Englewood High School. Prof. Newton is superintendent of the public schools in Volo, Ill. Prof. Jack, who has the department of English, is an old L. F. man. Prof. Farrington, who is teaching the sciences, has been unable to attend to his work on account of illness; meanwhile Prof. Limnell takes his place. Prof. Palmer, an Ann Arbor man, takes charge of the Latin department. Prof. Mendel teaches French and German. The latter is also a good football player. This ends the list of the Faculty, and we do not hesitate to say that the ‘Cad never had a stronger one.
EXCHANGES.

The University of Texas has an endowment of 2,300,000 acres of land.

Dr. D. K. Pearson has made Beloit a large donation for a new Science Hall.

Howard has in her library 365,000 bound volumes. Yale has 200,000, Cornell 150,000.

Yale last year received over a million dollars in gifts. Vassar College received half a million.

The elective courses offered by Yale number 119. Ann Arbor claims to have, in all, 242 courses of study.

"Now that you are twenty-five, Tom, I suppose you will go in for matrimony?"
"Yes, but spell it with a P."

An all-year-round training club has been established at Harvard, to be used by the different teams as needed.

Brown University has lately completed a fine gymnasium. It will be under the charge of two instructors, and each student will be required to take at least four hours exercise per week.

An English paper has started a foot-ball insurance system. A penny in addition to purchasing the paper insures the foot-ball player for the sum of £100 against fatal accidents.—Ex.

There are said to be over two hundred American students pursuing regular courses at the University of Berlin. They are highly thought of by their instructors for their earnestness and industry.

The Aegis, published at the University of Wisconsin, was the earliest of our exchanges to reach us this year, the first number being issued Sept. 11th. This paper has a large field, which it fully covers.

The journalistic spirit is evidently not favored by English students, for we do not find in England a single college journal. On the other hand, the first college paper was started in this country in 1800. It was published at Dartmouth and Daniel Webster was the editor.

The September number of the Coup D'Etat, the organ of Knox College, presents an attractive appearance, and contains over three pages of local news, besides a large amount of literary matter. The editorial board evidently did some "hustling" during the summer.

In assuming the editorship of this department, we wish to say that we trust that the same friendly relations which have always prevailed between ourselves and other college journals will be continued during the coming year. The position of the exchange editor is in many respects pleasant and instructive, as he comes in contact with the world of college journalism. We are glad to extend a greeting to all our old exchanges, and a cordial invitation to any whom we may not have heretofore had "on the list."

LATE NEWS.

A party of college youths and Sens drove down to Fort Sheridan last Tuesday evening, and "took in" the dress parade.

The Faculty allowed 17 men to go to Montmouth, to take part in the athletics. A number of others went "on pleasure bent."
