Lake Forest and Rush Medical Football Teams Unite.

When W. D. McNary, L. F. U. '93, read in the Chicago papers that Lake Forest had been beaten by Chicago University to the tune of 52-0, and that Rush Medical College had suffered defeat at the hands of the Chicago Athletic Association eleven on the same day with the score of 30-0, he resolved that heroic measures must be taken to keep the colleges from losing heart and, possibly, disbanding their teams. So he came up to Chicago from Monmouth, where he had been coaching the Monmouth College team and began laying his plans for the coalition of the two teams. Manager George C. Rice and Captain Marion Woolsey were pleased with the scheme, and a meeting was held at Lake Forest Thursday evening. There were present at that meeting McNary, Rice, Woolsey, W. H. Williams, the father of Western football; A. O. Jackson and H. B. Cragin, Jr. The proposition was thoroughly discussed in all its bearings and an agreement was reached, final, so far as Lake Forest was concerned. It lacked but the meeting of Manager Rice and Captain Woolsey with the Rush men to complete the arrangements and decide upon the written agreement. Friday noon the decisive meeting was held and in substance the arrangement is as follows: The management of the team will go to Lake Forest, George C. Rice having charge of the aggregation. Rush will have the captnacy and assistant management, while Marion Woolsey will be assistant captain.

The schedule of games with other colleges which Manager Rice had already arranged for Lake Forest will be kept and if Rush has arranged for any games on dates not already pre-empted by Lake Forest, these games will also be played by the "combination." Nine men from Rush and six from Lake Forest will comprise the team on each trip, and from this number the captain and coach will select the eleven men who will play.

In the opinion of many men of the College, both football players and otherwise, this arrangement should have been made long ago, as the teams of previous years, although nominally the teams of Lake Forest University, have without exception been composed solely of College men, with perhaps one or two Academy players. The chief obstacle in the way of forming a real Varsity team has been the fact that the graduate departments, Rush Medical College, the Chicago College of Dental Surgery and Chicago College of Law, are so far from the undergraduate departments as to make regular practice a hardship. Necessity, however, has bridged the chasm and daily practice is now assured. Three days in the week the team will practice in Chicago, probably on the grounds of the Chicago Athletic Association, and Lake Forest will be the practice ground on one day of each week. On Friday practice games with high school teams in Chicago will be played and the regular schedule of Saturday games will be carried out and also such Wednesday games as may be arranged.

The name of the new team will be Rush-Lake Forest and a combination of the red and black of L. F. U. and the orange of Rush will probably be the colors.

An Eastern trip as far as Pittsburg is contemplated. Dr. Nicholas Senn of Rush Medical College having enthusiastically offered the use of his private car to the team. In case the plan is carried out, the eleven will in all probability play the team of the Detroit Athletic Club and that of Washington and Jefferson College, Washington, Pa., and possibly other teams with whom dates will be arranged later on, provided sufficient guarantees are assured.

The Lake Forest men who will probably play on the team are: M. Woolsey, H. B. Cragin, Jr., J. H. Rheingans, W. Jackson and W. J. Rice. H. Thom, of the Chicago College of Law, will probably play right guard. With Duncan as center, Smolt as left guard and Thom as right guard, the team will have a bulwark in the middle of the line that will be able to withstand anything short of a battering-ram. Dun-
can weighs 220 pounds, Sinolt 230 and Thom 230, a total of 670 pounds of muscle to be overcome by the enemy.

The coalition of the teams is regarded with favor by the authorities at both Rush and Lake Forest. Dr. A. D. Bevan of Rush and Professor W. H. Williams of Lake Forest Academy have expressed their hearty approval. Said Professor Williams:

"I am heartily in favor of the combination of the football teams of Lake Forest and Rush Medical College. If carried out in the right way it will undoubtedly be of benefit to the Varsity. There is one point which needs to be emphasized in connection with this deal and that is the organization of a second team. A vigorous team should be organized and a schedule of games with outside teams arranged in order to keep up interest."

Although the union with Rush will take the best men of the Lake Forest team, yet a good second eleven will be organized and games with outside colleges will doubtless be arranged for it. Some of the men who will probably be regular players on the second eleven are: A. O. and J. J. Jackson, W. W. Jueger, M. K. Baker, R. O. Stoops, H. D. Casey, J. E. Carver, B. Campbell and D. S. Wentworth.

Badgers Are the Victors.

LAKE FOREST 5—WISCONSIN 26.

With signals made up while en route to Madison and with no previous practice together, the Lake Forest all-University eleven succeeded in scoring against the strong University of Wisconsin eleven Saturday.

The team left Lake Forest at 8 o'clock Saturday morning for Madison, Wis., arriving there at 12:25. The game was called at 3:15 and the teams lined up as follows:

**WISCONSIN**
- Sheldon
- Alexander
- Kull
- Forrest
- Pyre
- Anderson
- Trautman
- Karel
- Richards

**LAKE FOREST**
- Cragin
- Fallendein
- Kiordan
- Kull
- Thom
- Woolsey
- Allan
- Loomis
- Sager
- Piel

Lake Forest opened the game with the ball. Riordan caught it and carried it back to the center of the field. Pyre made a thirty-yard run and the 'Varsity then secured it on downs. After three downs Piel punted to the center of the field. By a series of rushes Madison pushed Gregg over the line for the first touchdown. Richards failed to kick goal. Alexander caught Piel's kick-off and by steady gains the home team soon had Pyre over the line for a second touchdown. Richards kicked goal.

Gregg caught the kick-off and Lake Forest secured it on downs, but Piel was again forced to punt. Karel made a ten and twenty-yard run, followed by a run of forty yards after which Richards secured the third touchdown. No goal. Time was almost up for the first half when Alexander brought the kick-off to the thirty-yard line, then Gregg behind Richards' excellent interference carried the ball for another touchdown from the center of the field. Time was called with the ball near the middle of the field.

In the second half the "Badgers" had the ball within two yards of the Lake Forest goal; but a fumble lost it. Again failure to gain forced Piel to punt. Richards fumbled it on the ten-yard line and from there the scoring drop kick was made by Piel. Richards secured the last touchdown for Madison. Time being called after a kick-off by Duncan, a punt by Richards, and a return punt by Piel.

Woolsey's plays received many compliments. Cragin played his first game at end but did not seem to be so much at home there as at center, where he has done much good work. Thom received a bad cut in one of the scrambles in the first half and has returned with some Wisconsin thread above his left eye.

Piel formerly played with an all-Ireland team and kicks equally well with either foot, according to how he catches the pass, and as he does not have to back up when punting, his opponents were usually deceived when he intended to punt.

Many old Lake Forest students were on the grounds and showed their loyalty to their former school.

Lake Forest Cripples Defeated.

ARMOUR INSTITUTE, 14—LAKE FOREST, 0.

Last Wednesday our football team journeyed to Chicago for another defeat and to make the usual score of 0. They met and were defeated by the Armour Institute eleven.

The team work of Armour Institute was the best seen this season and shows that they have been apt students of Coach Alward, while our boys did not seem to know the first principles, as shown by their failing to fall on the ball
and by courteously letting the opponents come
up and get it. Fumble after fumble was made
behind the line; in fact the ball was not once
lost by Lake Forest downs. Twice the old-
time cross-cross was successfully worked, sim-
ply because our end was out of place.

In view of the overwhelming defeat of Cap-
tain Wooley's men, it is unnecessary to tell
more about the game. The line-up was as fol-
ows:

ARMOHR INSTITUTE.
L. E. U:
Buell........right end..................Rheingans-
Tarbell........right tackle.............Casey
Hindert........right guard..............Condit
Neeves........center..................Cragin
Sadler........Jeff guard................Brown

Jackson and Biller.

Academy 12, N. W. M. 1 A. 6

Captain Miller's valiant defenders of the pig-
skii stepped over to highhind Park Saturday
afternoon and defeated the Northwestern Mil-
itary Academy eleven by the score of 12 to 6.

The secret of the victory was the presence at
the game of a delegation of 'Ferry Hall' girls,
who drove down to Highland Park to see the 'Cads' win.

The line-up was as follows:

Hinson........left end..................Isaacs
Smiley........left tackle..............Ams-
Buschelk........left guard...............Gordon
Werren........center..................Lee
Guthries........right guard...........Conway
Casey........right tackle..............O'Brien
Coey........right end..................Smith
Miller (captain)........quarter back.....Sterre

Second Team to Play.

To retrieve the Varsity's name at Armour
Institute is left to the second eleven. They will
meet the second Armour eleven at Lake Forest
Thursday afternoon.

Those trying for positions are: Condit, McCul-
lough; Price, Graff, Brown, Eakins, Jackson;
Campbell, Vance, Stoops (captain), Baker, McC-
cune, Hubachek, Wentworth and Conover. As

this is to be one of the few games which will
be played here, it is hoped that it will be well
patronized.

CLARK-HARRIS WEDDING.

The first wedding in the class of '95 of Ferry
Hall occurred Wednesday evening, when Miss
Satie Harris was married to Mr. Lewis Austin
Clark at her home in Chicago.

Miss Gertrude Pate, who was Miss Harris'
roommate at Ferry Hall was the maid of honor.
The Misses Keenga and Clark were brides-
maids. The bride's gown was of heavy white
satim with an elaborate collar of Duchessee-
point. The maid-of-honor wore white organ-
die and the bridesmaids pink. A reception
followed the ceremony and the Misses Clark
left for New York on a late train.

Those who attended the ceremony from Lake
Forest were the Misses Sargent, Sizer, Burtch-
ell, Morehouse, Zabriskie, Edyth Mercer, Lita
Stoddard and Lyda Pate and Professor Eager.
Of last year's Seminary graduating class, of
which Miss Harris was a member, there were
present Miss Della Stoddard, of Minonk, and
Miss Julia Clark, of Ottawa.

RECEPTION OF THE ATHENAEANS.

The Athenaeum Literary Society gave its an-
nual reception Friday evening, and in spite of
the threatening weather, a large crowd was
present. The society hall was prettily decora-
ted with the colors—blue and white—while the
usually forlorn-looking hallway was trans-
formed into a bower of autumn leaves.

Messrs. Carver, Adair, Graff and Baker com-
promised the committee to receive the guests.
During the evening Mrs. Audrey Warren and
Miss Pratt added to the pleasure of the occa-
sion by giving two vocal duets which were
thoroughly enjoyed by all. Ices and cake
were served, and each guest was presented
with a dainty souvenir in the shape of a blue
and white flag. Altogether the evening passed
very pleasantly and all felt that it was a
success in every particular. The junior and
senior classes of the Seminary, the young
women of the College, and the senior class
of the Academy were present, and the society
was glad to note the interest shown by the
presence of so many town people. As usual
several of the alumni of the society came out
from the city to attend and to help the mem-
bers receive. Among these were: W. E. Dan-
forth, R. H. Crozier, Fred Skinner, W. E. Pratt,
W. E. Knust, W. B. Smith, L. N. Rossiter, F. C.
Vincent and C. O. Parish.
A mistaken idea as to who are entitled to the privileges of the reading room seems to be prevalent. All students who pay the regular library fee have the right to make use of the reading room for reading purposes. In this number are included the young men and women of the College and the students of the Academy. As the reading room is maintained for the benefit of those who wish to read the periodicals placed there, no person has a right to turn the room into a smoking rendezvous. There is a rule prohibiting smoking in the reading room; but courtesy to others, and especially to the young women who have rights there should make such a rule unnecessary.

It has long been evident to those who are interested in football at Lake Forest that it is utterly impossible for the College department with its small numbers to maintain a team that can compete with the graduate teams of our sister universities. There was a time when Lake Forest was able to meet other colleges in successful combat; but that was before professionalism and graduate teams monopolized the noble game. If Lake Forest is to maintain her old-time prestige on the football field she must change her tactics, and be fully prepared to meet on equal terms the colleges that are holding out every inducement to football players. Nor need Lake Forest adopt professionalism, which has brought disrepute upon many of the so-called college teams. Lake Forest has it in her power to maintain a splendid football team if she will but take advantage of her opportunities. A communication in last week's STENTOR from an alumnus struck the keynote in the following words: "I see no reason why teams as strong as any in the country cannot be maintained at Lake Forest University. Let a university athletic association be formed, comprising all the departments, and the management of university athletics be in its hands. * * As it now stands the University has no place as a university in the athletic world. Lake Forest College has endeavored to maintain that standing, and the wonder is that she has done it so well with so few students." We are glad to say that a project is already on foot to establish a representation of all the departments in University athletics. This movement augurs great things for our University athletics, and when it is once thoroughly established we believe that the day will have passed when a world's record in scoring can be made against us by our neighbors.
General University News.

COLLEGE.

Eakins is attaining a splendid reputation as a bootblack, so it it is said.

FOUND—Two hat pins, Saturday morning in room 32, College Hall.

S. S. Speer, of the Stentor Press, has just recovered from a slight illness.

The annual auction of reading room papers will be held in the reading room Friday evening at 7 o'clock sharp.

Harry L. Bird, former editor of The Stentor, now a reporter on the Chicago Chronicle, spent Sunday with George Rice.

It is said that an indoor baseball team has been organized in the town. Isn't it about time that practice for our team was begun?

Immediate action should be taken to provide a chaperon for the two little boys who while away their precious moments at Highland Park.

In the Dial of October 1 appears a review of Sir William Martin Conway's recent volume "The Alps from End to End," by Librarian Stanley.

It's a cold day when the Rhetoric classes fail to describe the beauties of Lake Michigan in the early morning. So says Professor Hinckley.

Lost, strayed or borrowed—some calling cards and a sign from room 32, last Friday evening. Return to D. S. Wentworth and no questions will be asked.

In the last issue of the Lake Shore Herald were printed about thirty cuts of the faculty, buildings, interior views, etc., of the College, Academy and Seminary.

It is a refreshing sight to see Kocourek and Burgman coursing down Deepth avenue together on their bicycles, the one with a game hand and the other with a game leg.

The Rev. G. A. Mitchell, of Calvary Church, Chicago, came out one day last week. He is a graduate of the Academy, '81. He passed his freshman year in college here, and later took work in Chicago University.

Why should college girls buy nursing bottles for freshmen?

A set of nursing bottles will be sold at a very reasonable price by several of the inhabitants of Mitchell Hall. The purchasers bought them while laboring under a delusion and can find no use for their property.

"Kelly" Erskine, while coursing swiftly down Deerpath avenue on his wheel unexpectedly collided with the wheel of Mr. Bray, the genius instructor in botany. Both were tired, neither spoke, and beyond bending the fork of Mr. Bray's wheel, no serious damage was done.

It is alleged that superstition and fetishism have a strong foothold in the minds of some of our most promising students. A certain young man in Lake Forest, it is alleged, carries a rabbit's foot in one pocket for general good luck and a horse chestnut in another for the purpose of warding off rheumatism.

The following is from the last number of the Northwestern, the weekly of Northwestern University: "Prof. N. Bross Thomas, of Lake Forest University, addressed the association meeting Sunday morning on Bible study. His talk was given in connection with the organization of classes in Bible study, and he made some valuable suggestions."

At the meeting Tuesday night an election was held for president of the Young Men's Christian Association to succeed John Steele. H. J. Betten was elected. The present board of officers is as follows: President, H. J. Betten; vice-president, R. L. Roberts; recording secretary, W. S. McCullagh; corresponding secretary, J. E. Carver; treasurer, R. O. Stoops.

Mr. Eugene Hunt, who edits the Lake Shore Herald, and who is highly esteemed by every Stentor reporter, takes exception to what this paper says about the borrowing of cuts on his part, and avers that next year the new dormitory will be a reality. Perhaps it will if Mr. Hunt will pay for its erection, but the fact that he prints the picture will do nothing toward it, for The Stentor has printed the picture, too, and that before anybody dreamed that there would ever be such a thing as the Lake Shore Herald. By the way, we have an old cut of a proposed science hall which Mr. Hunt can have if he wishes to print it.
FERRY HALL.

The senior, "once lost, is found."

Mrs. Harbaugh visited her daughter Friday. Everyone reports a good time at the Athenaeum reception.

Another new girl, Miss Boswell, of Chicago, came to Ferry Hall last week.

Most of the girls now know that Huyler's bonbons can be bought at Mr. Martin's.

The Misses Gertrude and Lyda Tate went to Chicago Tuesday to attend the funeral of their aunt.

The art class, under the guidance of Miss Cushman, visited the Art Institute in Chicago Wednesday.

The domestic science class were favored with a talk on bacteria Wednesday by Professor Locy at the College.

The Misses Thompson and Rosalind Brown attended a dinner party and musicale given by Madame Meyer in the city Friday evening.

The Misses Burchell, Pride, Mander, Mercer, Delta Stoddard and Lita Stoddard, chaperoned by Miss Sizer, drove to Highland Park Saturday to the ball game.

The officers elected for the athletic association are: President, Rosalind Brown; vice-president, Marian Cummings; secretary and treasurer, Edna Hayes. Further athletic developments will be reported next week.

This week witnessed the return of five of last year's girls. Florence Wells and Julia Clark came Friday evening, and Frances Mander, Florence Pride and Delta Stoddard Saturday. An elaborate feast was given for them in the "Kennel" Saturday evening.

Several of the girls, grown suddenly fond of weddings, had an elaborate mock ceremony Thursday evening. The bride's costume was fearfully and wonderfully made. The minister was severe in the extreme. The bridesmaids were perfection itself. To attempt to describe the groom and best man would be out of place, but the wedding was a grand affair.

ACADEMY.

Davies' father paid him a visit last week.

Ewing, who has been delayed by sickness, returned Saturday.

Mrs. Triesdale and baby are expected at the Academy next week.

"Funnel" is still the rage in the Academy. It seems as if the new fellows would never "catch on." Mrs. Smith will not return to Lake Forest until after Thanksgiving.

All the Seniors report a good time at the Athenaeum reception Friday evening.

Della, the little daughter of Principal Smith, scalded her arm badly while visiting her mother at Princeton, Ill.

Mr. Fagg was elected literary secretary of Tri Kappa instead of Ewing, whose sickness prevented him from returning.

Linkenhelt is in hard luck. He has been sick about one-half the time since he came here, but is now slowly recovering.

It seems a shame that after the boys have worked hard to have a winning team, they are not allowed to celebrate their victories with bonfires.

Mrs. Palmer and baby are expected back next week. "Papa" Palmer says the younger ought to make the Cad football team, as he is a good kicker.

The tennis courts have now been put in good shape, and the committee should see that the boys keep off them with their shoes, or it will not be long before they are in poor condition again.

There seems to be a hoodoo hovering over the Cad football team. But though a little disfigured they are still in the ring. Raylies has a broken finger, Guthries a broken rib, Casey a sprained ankle and Hanson a lame back.

MITCHELL HALL.

Where is the sextet? Have they folded their tents, like the Arabs, and silently stolen— somewhere else?

Miss Lelia Hodge has commenced her usual trips to the city. THE STENTOR does not keep an account book.

It is to be regretted that it is impossible to have some of the various "laughs" of Mitchell Hall printed. They would do credit to a brass band in the zoological gardens.

The young women who attended the Athenaeum reception report a very pleasant evening. The souvenirs were unique and pretty and will bring pleasant memories of the Aths '95.

The Young Women's Bible Class is taking up the study of old testament history, together with that of comparative religions, under Professor Halsey. The class meets at the usual Sunday-school hour at the church.
TOWN ITEMS.

Nearly all the summer residents of Lake Forest have returned to their city homes.

The Misses Grace and Margaret Coulter gave a dinner party for some of their friends Saturday evening.

The fire companies are improving daily and it will take but a little time and patience to get the three divisions into good fire-fighting form.

Mr. E. S. Wells will spend the months of October and November in his Lake Forest home, after which he will go to New York to pass the winter.

Mrs. Warren is at present staying in town. She is preparing her house for Mr. Jensen, who will occupy it this winter. Mrs. Warren will spend the winter in California.

A new roadway, leading from Mr. Warner's corner to the beautiful homes of Mr. Gorton and Mr. Fauntleroy, has been opened. The roadbed is of the finest quality of crushed stone and gravel.

Mrs. Sophia Rhea Dulles has returned to Lake Forest after a delightful two months' journey across the ocean. Mrs. Dulles, after a short visit in Lake Forest, will return to New York, where she will resume housekeeping.

Have you seen the ball-tree, made of over five thousand pieces of poplar, maple, cherry, oak, walnut, butternut and pine, which is displayed in a drug store up town? It was built by a man in town, affording him occupation for six months.

Police! Police! Lake Forest has secured a new grey-uniformed officer of the law. Chief-of-Police Healey has been relieved from active service as his health of late has made it impossible for him to attend to his manifold duties in the fast-growing city of Lake Forest. Lake Forest can now boast of a strong and healthy marshal, whose name is James Gordon, and who is most willing to work. It is with great pleasure that THE STENTOR extends to "His Honor" a hearty welcome to our peaceful little burg.

Arthur A. Knipe, the University of Pennsylvania's football captain of last year, is writing a football novel, which he has all but completed. It is a story of college life, and will be published toward the close of the winter.—Philadelphia Times.

AMONG THE ALUMNI.

'88—Miss Jane Wilson is at home at Tekanan, Neb., this year.

'91—Henry Hamlin Davis is preaching at Slack, Wyoming.

Ernest G. Wood is teaching this year in the high school at Harvey, Ill.

'94—Grace Pearce is taking a course at the Indiana Normal College.

Mary Pearce has gone to Northwestern University for a course in oratory.

On the Rush-Lake Forest team we have Harry Thom, '94; D. H. Williams, ex-'92, and W. D. McNary, '93.

Rev. H. E. House, ex-'94, has received a call to the Presbyterian church at Saint Croix Falls, Minn. He will accept.

'94—Ernest C. Cleveland, who was with the Waukegan Gazette for a year past, has gone to Grand Rapids, Mich., to work on the Herald there.

Ex-'97—Fred C. Vincent will not return to Stanford University this year, but has entered the Chicago University. He rooms with Don Kennedy at Snell Hall.

Forest Grant, who is known to all old College and Academy men, has ceased drawing pictures for the present, and is teaching at Stevens Point, Wis.

Monday, October 14, at the ministerial association meeting which was held in the Association Building, the Rev. Neptune B. W. Gallwey, ex-'91, read a paper entitled, "The Institutional Church and Its Problems."

'93—Charles S. Davies has returned from his summer field of labor in southern Illinois, where he rocked the babies, taught the children the shorter catechism, and instructed a Bible class in Egyptology, and has resumed his work in McCormick Seminary. He spent Sunday at home in Lake Forest.

Among those of our alumni who have distinguished themselves on the football field this year is John A. Bloomington, ex-'94, who plays full-back for Michigan's team, which bids fair to be the champion team of the west.

D. H. Jackson is one of the half-backs for the Cornell team. His swift running has already drawn the attention of the trainers down there. Don Kennedy, ex-'98, will play end on the Chicago University team. He is said to be a good tackler, in fact as good as any on the team. In this team also is Nott Flint, '93 Academy, who plays tackle.

Dickinson, ex-'93 Academy, is not able to play this year for Madison on account of family interference. This is considered quite a loss for the team.

'94—Walter F. Curry will not return to Princeton Theological Seminary this year, but has already entered Rush Medical College. So once more he dons the colors of his old alma mater.

Lake Forest's Chicago alumni club met for the first time this season in the Y. M. C. A. restaurant, 153 LaSalle street, Monday evening, October 7. The club decided to meet on the first Monday of each month at 6 p.m. for an informal fellowship banquet. All former students of Lake Forest are invited to attend these gatherings, and thus keep alive old associations and regard for alma mater. Among those present last week were: Dr. B. M. Linnell, president; W. E. Pratt, secretary; Rev. G. W. Wright, Alexander S. Wilson, Charles S. Davies, N. H. Burdick, Robert H. Crozier, Harry L. Bird and John M. Hunniston.

PHYSICAL TRAINING AT FERRY HALL.

EDITOR OF THE STENTOR: Preparations for beginning the practical work for the women in the gymnasium are nearly completed. The physical examinations are in progress, and class and individual work will soon begin. It may not be clearly understood that no fees will be charged this year for those in the College or Ferry Hall. The classes in the College gymnasium will be open for any of the ladies in the town who may desire to enter the work; and it is possible that a children's class may be formed.

The work will be planned to meet the needs of the individual. No one system will be followed, but exercises both on and off the apparatus will be given from the Swedish, German or Delsarte, as the case may demand. Those entering the course will first be given a physical examination, and then the class and individual work assigned as needed. The object of the work is to gain health, strength and beauty of development.

"To train the mind and neglect the body is to produce a cripple."

MARY STEVENS AYRES, Instructor.

The Harvard faculty has passed the following vote: "Hereafter musical and dramatic performances by students are not allowed, except in places to which and from which students can travel in one day."
SENIORS ORGANIZE FOR PLEASURE.

As usual the College seniors are bent on pleasure as well as on study. Accordingly they have organized themselves for the purpose of seeking recreation, etc. Thursday a meeting was held and the Ivy club formed, whose members are to be the members of the College class of '95. Contrary to the custom of former years the Ferry Hall seniors were not requested to join the club. The first meeting is to be held October 21st at Mitchell Hall.

At the same class meeting the question of wearing caps and gowns was discussed, but the majority opposed their adoption. Elaborate arrangements for class day exercises during commencement week will be made this year.

ANOTHER FORESTER THIS YEAR.

The class of '97 has undertaken to publish the Forester, the university annual, this year. The work on the book will be begun at once, and it is the purpose of the class to make it even better than the two preceding volumes. The Chicago departments of the University will be represented.

At the election held by the class last week the following board of editors for the Forester was chosen: M. K. Baker, editor-in-chief; associate editors, Jessie Wetherhold and W. T. Angus; business manager, H. B. Cragin, Jr.; advertising agent, J. E. Carver; staff artist, J. A. Anderson.

One-sixteenth of the college students in the United States are studying for the ministry.

Mr. W.—Now remember, I don't want a very large picture. Photographer.—All right, sir, please close your mouth.

The Beloit women of the freshman class subscribed in a body to the athletic fund. The students are now flat-footed for co-education.

—University of Chicago Weekly.

Amherst College is about to start an institution which would seem a natural enough need in any college. It is a cottage to which a student who is tired, sick or injured can go for good care and nursing instead of running home before he knows the nature or extent of his trouble. It is to be: "a home where a 'mother' can be found at any hour of the day or night, with a ready room and bed, and a good woman's sense, who can nurse him until he has found out whether he is really sick or not."

HOW THE FACULTY PASSED THE VACATION.

Being curious to learn how the members of the faculty were engaged while the students were attending summer school and engaged in other wearying pursuits, a reporter for THE STENTOR saw each member, and here you have it:

Dr. Coulter ran two summer schools, one at Bay View, Mich., during July and the first two weeks of August, and the other at Eagle Lake, Ind., during August. During the two weeks which these schools had in common Dr. Coulter was journeying back and forth over the lake between the two. During all of this time he was carrying on a heavy correspondence for the College, and on his return to Lake Forest in the latter part of August, devoted his time to the business incident to the opening of school.

Professor Halsey spent his time in Lake Forest working among the books in Mr. W. H. Smith's library. He also made several trips to Chicago to work in the Chicago Public and the Law Institute Libraries.

Professor Dawson passed five weeks of his vacation in the East. Three weeks were passed in Boston, New York and Connecticut. On his way home Professor Dawson made visits in New York State and Ohio.

Professor Locky was at Provincetown, Cape Cod, for ten weeks. There he went to study the shark embryo. He also delivered a lecture on marine biology in Wood's Hole, Mass.

Besides teaching in the summer school, Professor McNell tutored a number of town boys in mathematics, and incidentally played golf. After the close of the summer session he took a trip up the lakes for about a month.

Professor M. B. Thomas spent his time in Lake Forest in reading and study. His recreation consisted of jaunts on his wheels into the country, and during the first week in September he went on a fishing trip to Wisconsin. He has been preaching every Sunday at South Evanston.

Professor Stuart was engaged in work along the line of his department during the summer with Professor Chandler of the University of Chicago. The last two weeks he spent in Charlevoix with his family. He also passed some of his leisure time at wheel.

"I spent about five weeks of the vacation in Britain," said Professor Walter Smith, visiting in England and Scotland in July and August; the remainder of my summer was passed very pleasantly in Lake Forest."

Professor Bridgman's new house absorbed
his attention. He also found time to tutor a few students in Greek.

Professor Booth was engaged until August 20 in the perfection of his fourth edition of "Delsarte Outline." The first edition of this work was published in 1884, and consisted of about fifty pages. Each successive edition has been an enlargement over its predecessors, and the present volume contains nearly 200 pages. Professor Booth spent the remainder of his vacation at Sault Ste. Marie with his two sons.

Besides conducting the biological work in the summer school Mr. Bray had a class of about fifteen town ladies in a special botanical course on the fertilization of flowers by insects, and a class in nature studies. Mr. Bray's recreation consisted of rides on his new wheel and a ten days' trip to Bloomington, Ind., just before the opening of the term.

After being married in June Mr. Fradenburgh spent his vacation at the Clarion Assembly, near Pittsburg, Pa., and the Winona Assembly at Eagle Lake, Ind. At the latter place he had charge of the department of Economics for the session.

Mr. Huntington spent his vacation at home in study, making frequent trips to visit the Newberry and Public Libraries in Chicago to carry on private study in one phase of the Elizabethan drama, which is his specialty in English.

Mr. Stanley stayed in Lake Forest during most of his vacation. In June he went East to Cape Cod with Professor Locy, and stayed until the early part of July.

"Far from the madding crowd's ignoble strife, * * * They kept the noiseless tenor of their way."

Of all fair things that Mother Earth both hold, The ancient mountains and 'the' wind-swept sea, Or clouds of summer evening, fold on fold, Wrought in the west to golden harmony; My dear one's eyes are fairest, where 'Love' dwells.

Held as the trumpet flower holds the bee: For all may hark to what the wild bird tells, But her true eyes can only shine for me.

—Harvard Advocate.

There are eighteen college-bred men in the United States Senate.

The Cornell Glee and Banjo Clubs made a successful tour of England this summer.

The oratorical association of Chicago University has issued a challenge to the University of Illinois to meet in joint debate at Chicago, in the latter part of December.
