The Stentor, May 18, 1898
FERRY HALL NOTES.

Miss Sizer spent Saturday in the city.
Miss Sargent spent Thursday in the city.
Misses Hart and Paddock called in Waukegan Saturday.
Mr. Sam McClintock spent Saturday and Sunday at the Sem.
The golfers played Thursday afternoon on the McCormick links.
Miss Faith Williams visited with friends in Waukegan over Sunday.
Miss Florence Stewart took dinner with Miss Emily Johnson Friday night.
Mr. Frank Blackburn of Waukegan, called on friends at the Seminary Saturday.
Miss Winnifred Patrick was the guest of friends in Evanston, Saturday and Sunday.
Miss Briggs and Miss Lindsey of Hinsdale Ill. took luncheon with Miss Sargent on Saturday.
Miss Cook from Three Rivers, Michigan visited with Miss Mary Griffiths over Sunday.
The "Sumus Septem" entertained Miss Lady Ford and Miss Lauretta Ford of Waukegan Saturday.
Dr. Floyd Long of Northwestern University took dinner with friends at the Seminary Saturday night.
Miss Helen Paddock entertained her sister, Miss Emma, and cousin, Miss Gladys Cobb, from Kankakee the latter part of the week.

The athletic association contemplates laying another tennis court on the campus there is so much enthusiasm among the girls that there seems hardly enough courts for all the members to play. A croquet set is also to be added for the younger girls amusement.

MITCHELL HALL.

Misses Steele and Stewart visited Miss Brockway over Sunday.
Miss May Benson, of Chicago, spent Sunday with Miss Douglass.
Mr. Frank A. Watkins, of Chicago, was entertained at dinner Saturday evening.
Miss Jessie Wetherhold, '97, has been spending a few days with friends at Mitchell Hall.
Miss Byllesby was called home last week by the death of her father. She will not return this semester.
The tennis courts have been put into good condition and are much improved by the new nets presented by Mr. Delavan Smith.

At a meeting of the recently organized Athletic Association the following officers were elected:
President—Miss Moore.
Vice President—Miss McClenahan.
Secretary and Treasurer—Miss Miller.

Everyone who has loyalty either for his country or for Lake Forest's student enterprises should turn out to the War Song Concert and Minstrel Show May 28th.
ALUMNI.

J. F. Farris, ex-'92, will locate at Mt. Carmel.

Matthews will settle in Marengo, Ill., while Davis will continue to hold his position on the Ram's Horn.

Newman H. Burdick is pastor of the church at Rochester, Minn. The future promises much to the church and all are hopefully looking forward to the realization of plans now under way.

"Attorneys James M. Hoy and William U. Halbert have formed a law partnership and have their office in the northeast corner room in the basement of the Court House. Mr. Hoy is an old practitioner and is one of the leading members of the Belleville bar. His partner, Mr. Halbert, is a son of the late Capt. R. A. Halbert. He is a young man of brilliant attainments." We print the above clipping from the Belleville Weekly Advocate and are glad to note the bright outlook for one of our old Alumni.

TO THE EDITOR OF THE STENTOR:

Allow me to congratulate you upon the victory over Evanston which the Lake Forest ball team accomplished recently. I saw an account of it in the STENTOR and was delighted I assure you. Believe me, I follow the interests of the old school and rejoice with her in her successes and mourn in her reverses. Permit me to congratulate the team and captain through you and express the desire which all the Alumni feel that you will find more than one "Manila" in your record when the season closes.

The above was received from E. E. Vance, '95, and voices the spirit of many of our Alumni. Mr. Vance has just completed his course at "McCormick" and is now in charge of a church at Cooksville, Ill.

TO THE STENTOR EDITOR: Permit me to express the gratification which the little "Coterie" of Lake Forest Alumni in St. Louis feels in view of the recent base ball victory over Northwestern.

The undergraduate is wont to discount the real interest which the alumni holds in the college, and most especially in the student life of which athletics is a clear exponent. Every alumnus who has the opportunity is well acquainted with the doings at the University. He is always glad to do his part toward the success of the University and its life. There should be an active and personal working continuity of interest between the undergraduates and the Alumni. In athletics, especially, the graduates can help. They know the situation. Their advice, born of experience, is worth something, and the coaching of teams which they may give or provide is most valuable.

No base ball season at Lake Forest ever opened with so small promise and ever closed with so happy a record as that of '92. With barely nine available men some of whom were of unknown quality, with a very rainy spring, with no money and no expression of interest from the Alumni, the team departed for Beloit, Northwestern and the University of Illinois, which colleges formed the Northwestern league, and secured the championship. This was done by energetic, persistent and spontaneous work of captain and men, directed by a qualified coach. Another great help to the team that season came from the student body. The loyalty of Ferry Hall girls, College and Academy boys supported the team, and filled the grand stand in spite of mud and rain.

The Ferry Hall Campus was often lighted up by the "Bon Fires of Victory," Dr. Seeley's barrels furnishing the light.

To show the reward of honest effort, the score of the last game of the season which was played at Evanston, June 8, 1892, and which has never been published
is appended. It may be of interest. Geo. W. Ellis, '93, and Harry Goodman, '94, were captain and manager. Every graduate rejoices with the ball team and its captain. A loyal Alumni of '93!

An unpublished record at Evanston, June 8, 1892:

**SCIENCE CLUB.**

The Science Club held its regular meeting on Monday night in the College. The program consisted of two papers: one by Mr. Hannant on Acetylene Gas, illustrated by a number of practical experiments; and one by Miss Blanche Treat on Experiments in Vivisection. The members of the club held interesting discussions on these papers.

The meeting next week will be held in the College and a lecture will be given by Dr. Elisha Gray, of Highland Park, on "Conservation of Energy." This meeting promises to be of unusual interest. All who take an interest in this club are invited to be present. The program will begin at 7:30.

**COLLEGE NOTES.**

C. H. Denslow spent Saturday in the city.

J. E. Carver, '97, spent Tuesday in town.

A. O. Jackson, '96, spent Sunday in Lake Forest.

J. G. Coulter visited friends in Lake Forest Sunday.

Zeta Epsilon gave a very pleasant reception Friday evening.

The University field day was poorly attended Saturday on account of rain.

Fred A. Hulme, of Elgin, visited with A. B. Hoagland Saturday and Sunday.

The base ball team will have its picture taken at Root's in the city Saturday.

The state known as "restrictio de Seminaria" is getting very prevalent in College.

D. S. Wentworth, ex-'99, spent the latter part of last week with Phi Pi Epsilon friends.

The base ball team left this morning for Delafield, Wis., to play St. Johns Military Academy.

The Lake County C. E. Convention met in Lake Forest Saturday and was attended by a number of college students.

The Phi Pi Epsilon boys have substituted new fraternity hats of white flannel with the monograms of the members on them, for their winter caps.

A meeting was held Monday evening by those interested in the Athletic Entertainment and the War Concert which were to be given, and definite arrangements were made to give a concert and minstrel show on May 28, in the Art Institute, for the benefit of the Athletic Association. There is plenty of good material in college and a pleasant and amusing entertainment is expected.
A number of congratulatory notes have been received from our Alumni to the base ball team for its recent victory over Northwestern, which indicate the interest our Alumni are taking in affairs in Lake Forest. The interest shown by our Alumni in this way and in securing a coach for our team this season is deeply appreciated by the students and especially by the ball team and the STENTOR takes this occasion to thank the Alumni for their aid.

The entertainment to be given by the students on Saturday evening May 28 promises to be of unusual interest and it is to be hoped that all who are interested in the students will patronize this entertainment fully. This entertainment will take the place of the regular one given annually for the benefit of athletics and is most certainly deserving of all the cooperation of the students and others for its success. The Athletic Association is more nearly on a firm footing financially now than it has ever been and it is to be hoped that it will remain so.

During the past year the lack of interest shown in track athletics in Lake Forest has been very noticeable, but the recent laying of a track on our Academy Athletic Field should cause a renewal of interest in this line of sport. For four or five years past Lake Forest has had an enviable record in track work, and has often won meets and points against superior odds. Lake Forest has held a representative on the executive committee of the Western Intercollegiate Association for three years now, by virtue of points won by her athletes in the annual meeting, and her athletes have won their points, as a result of the hardest work in spite of obstacles on a field not fit for any use but as a pasture land. Now that we have a good track shall we not continue our good work in track athletics and show our appreciation of this track, which has been laid through the interest taken in this sort of work by Principal Welch, of the Academy? It will be certainly gratifying to him to see the good work, started last Saturday both by Academy and College students, kept up.

**TOWN LOCALS.**

Miss Ellen Holt is visiting her brother in Oconto Wis.

Miss Brearley has returned from her trip to Canton, Ill.

Remember the Athletic Minstrel Show May 28—and tell your friends about it.

Mrs. Warren has rented her home to Mr. Viles of Chicago for the summer months.

"If you have tears" prepare to leave them behind when you attend the Athletic show.

Henry P. Crowell and family of 167 Rush street, Chicago will occupy the Stanley house this summer.
ACADEMY NOTES.

Ask Spiv how he likes a tie pass from Evanston.

A second Biggs (big) cupid is rapidly developing.

A row of trees has been set on the campus along the north walk.

The Senior class visited the city last week for the purpose of a class picture.

Miss Hall was the guest of her brother at the Dormitory over Saturday and Sunday.

A. E. Hall made his customary weekly trip to the city Friday where he met his sister.

Prof. McKee was absent from the Academy on business Friday and Saturday.

W. Shedden's career as a public reciter has been somewhat short lived but remunerative.

A number of the boys had an active part in the C. E. Convention lately held in Lake Forest.

A jumping pit is also one of the things that makes our athletic field an all round place for practice.

Our track is finally completed and now the Academy can boast of the finest track in the league.

The time draws nigh when those knowing Seniors will be finished. Cheer up, boys, the worst is yet to follow.

Stanley C. Foote and W. Gilbert made a “bike” trip over in the neighborhood of Libertyville Saturday on business.

Principal Welch called a meeting of the students Sunday afternoon and gave them an earnest and interesting talk.

Prof. Strong took his Zoology class to the city Saturday for the purpose of widening their knowledge along this branch of science.

The 3rd team played a successful game of ball at Kenelworth Saturday morning. Score 15 to 12. The third team so far has not lost a game.

At a meeting of the Academy Athletic Association H. A. Cameron was elected manager of the foot ball team for next fall and will soon have the league schedule ready for print.

An appeal from the chapel rostrum a few mornings ago to the athletic spirit of the boys called forth lusty demonstrations and a material response in better practice work on the part of the boys.

ATHLETICS.

Field Day.

The University Field Day was very successful in spite of the efforts of the weather man to spoil the day.

At 3:30 the rain began to fall and the athletes began to contest and through the entire afternoon it was a battle royal between weather and men for supremacy. On account of the rain the professional men did not come out.

A large force of teams and men have been at work on the new track and at 11:30 Saturday the teams left the field, having completed their work. The track is 5 ½ laps to the mile and made of a mixture of cinders and clay. It is modeled after the Travers Island track where the C. A. A. team met the New York athletic team last summer.

The 110 yard hurdle was the first event of the day which J. J. Jackson placed to his credit.

The real surprise of the day was the winning of 880 yds. run by Baird. Rice, an old timer, led the race from the start and everybody had put him down for a sure winner, but at the stretch Baird began to close on him and just before reaching the tape passed him and won by a foot in 2:26.

The next most exciting race of the day
was the 220 yds. run won by Jaeger—time :26. Willis led the bunch the greater part of the distance but Jaeger had a little more push and won by about a yard.

While most of the times were not record breaking, it must be remembered that the track was heavy on account of a continual downpour of rain.

There were no long delays between events and the 12 events were run in two hours.

Respecting the number of points the college made 67 (counting 5 for 1st and 3 for 2nd and 1 for 3rd,) and the Academy 39.

The Academy team are all new men and have never been in a contest before so that the records they made are good, and Captain Hamm is to be congratulated on the showing of his men.

The next contest that is scheduled for Lake Forest is the Inter Academic meet to be held on June 11th.

The summary is as follows:

50 yards dash—Hamm, 1st; Blackler, 2nd; Willis, 3rd. Time :6.

Shot Put—J. J. Jackson 1st; Norton, 2nd. Distance 19 feet 6 inches.

100 yards dash—1st heat, Jaeger and Hamm tie for 1st. Time, 10.4. 2nd heat, Jackson, 1st; Willis, 2nd. Time :10.5. Final, Jackson, 1st; Jaeger, 2nd; Hamm, 3rd. Time 10.1-5.

880 yards run—Baird, 1st; Rice, 2nd; Anderson, 3rd. Time 2:36.

Hammer Throw—Hamm, 1st; Biggs, 2nd. Distance, 18 feet, 1 inch.

440 yards run—Hanson, 1st; Jackson, 2nd. Time :61.

Running broad jump—Jaeger, 1st; Biggs, 2nd. Distance 18 feet 10 inches.

Standing broad jump—Jaeger, 1st; Jackson, 2nd; Biggs, 3rd. Distance 9 feet 10 inches.

220 yard dash—Jaeger, 1st; Willis, 2nd; Curtis, 3rd. Time :26.

Running, hop, step and jump—Jaeger, 1st; Percival, 2nd. Distance, 57 feet 1 inch.

1 mile—Rice, 1st; Hamm, 2nd; Biggs, 3rd. Time 3:23.1-5.

Mr. A. S. Reid donated the Sterling silver medals which were given to the winners of first and second places.

Morgan Park 12, Lake Forest 1.

Lake Forest Academy base ball team went to Morgan Park Saturday to play the second of the Inter-Academic league games and suffered defeat by a score of 12 to 1.

It rained the entire afternoon, which made the game slow and uninteresting. It is to be hoped that the team will take a brace now and win the remainder of the games. The team is made up mainly of inexperienced players, which accounts somewhat for the poor showing they have made thus far, but there are two or three of the players who invariably "loaf" during practice and as a result they are not in shape to play when it comes to a game.

The score by innings:

Lake Forest Academy 0 0 1 0 0—1
Morgan Park 1 1 2 8—12

Now that the new track is completed we hope to see a large number of both college and academy men out every day to train, so that we can make a good showing at the Western inter-collegiate contest at Park Side, June 4, and in the inter-academic contest at Lake Forest, June 11.

We wish here to express our thanks to Mr. A. S. Reed for his kindness in donating the medals for the contests last Saturday.

The College base ball team is at Delifield today playing the St. Johns Military Academy. The game last year was close but in favor of Lake Forest and we predict another victory for them today.

SENIOR: "Can you tell me why our college is such a learned place?"

FRESHMAN: "Certainly! The Freshmen always bring a little learning here and the Seniors never take any away, hence, it accumulates."
EXCHANGE.

Yale is to have a new Y. M. C. A. building.

Nebraska is to have cooking school for girls.

Missouri wins the debate wins the University of Kansas.

The Daily Cardinal has a series of "War Specials" in its columns.

Phi Gamma Delta of Cornell university has purchased a new residence.

Barnard, Princeton's famous half-back, will coach Northwestern's eleven next fall.

Princeton received a gift of $100,000 for a new dormitory from a member of the class of '44.

The University of California is now making an effort to establish a college of commerce as one of her departments.

The Kansas University received a gift of $18,000 for their new electrical engineering building, from Geo. Fowler, of Kansas City.

Cornell established a college of forestry and a college of medicine, April 14. They are also to have a new chemical laboratory in the near future.

The Wisconsin crew will compete with Cornell, Columbia and Pennsylvania, having accepted invitations from these three institutions to enter the boat races next June.

The State University of Iowa is to have a long expected college building. The plans have been accepted by the regents and work will begin on it about a year from date.

Two new departments have been added to Cornell university, one of medicine the other of forestry; the former given by private generosity, the latter supported by the State of New York. The medical college will be located in New York City.

A uniform inter-collegiate system of strength of tests has been adopted by the physical directors of fifteen colleges and universities, including Harvard, Yale, Pennsylvania, Princeton, Columbia and Cornell. It will go into effect in October, 1898.

Work on Phillips Brooks house at Harvard was begun in March. The committee in charge of the work have $50,000, much less than it was thought could be raised. The building will be a home for all forms of spiritual activity and benevolent action in the university.

Yale's football schedule for next fall shows decided changes. She will play Princeton before Harvard, and this game will occur Nov. 12, at Princeton for the time in Yale's history. The Yale-Harvard game occurs Nov. 19, at New Haven. The Harvard-Pennsylvania game will occur at Cambridge Nov. 5.

Brown University has a new athletic field, the gift of the Brown Corporation to the Athletic Association. The land was given to the University some time ago. The grading will be completed June 1 and the work on the track will be begun then. A fine grand stand to cost five or ten thousand dollars is projected.

A boy had been up for an examination in scripture, had failed utterly, and the relation between him and the examiner had become somewhat strained. The latter asked him if there was any text in the whole Bible he could quote. The boy pondered and then repeated: "And Judas went out and hanged himself." "Is there any other verse in the Bible you know?" the examiner asked. "Yes. 'Go thou and do likewise,' " There was a solemn pause—and the proceeding terminated.
WAR SONG CONCERT.

The War Song Concert which was to have been held last Saturday night was postponed till May 28, when it will be given in connection with a minstrel show. This combination promises to produce one of the most interesting and certainly the most novel entertainment of the year in Lake Forest.

At a meeting of the students Monday evening the chorus was organized and a minstrel troupe gotten together. Probably a number of our Alumni will take part in the minstrel show. This entertainment will be given for the benefit of athletics and prospects are bright for increasing our athletic fund considerably if no unfavorable circumstances arise. The entertainment will be held at the Art Institute.

There is a plan now under consideration to consolidate Harvard University and the Massachusetts Institute of Technology, which would make one of the largest universities in the world, with a total of 6,000 students.

“My son, my son will drown;
He's gone where he hadn't ought ter.”
“His floating ribs will keep him up,”
Remarked the learned daughter.

Cornell University has about ready in its hydraulic laboratory, a testing tank by which will be ascertained many facts as to reducing water resistance, increasing coaling capacity and speed, by experiments made therein with models of vessels. Many governments own these tanks now, but keep secret the facts discovered, so as to get advantages over other nations in case of war, while at Cornell every thing ascertained will be published abroad. It is this fact which causes the new tank to be the object of so much interest on the part of civil engineers. The tank is 350 feet long, 16 wide and 10 deep. The depth can be varied, and the water may be calm or made to run rapidly through the tank.
